

Legacy Rugby Academy Youth Rugby Partnership at a Glance

Purpose: Legacy Rugby is committed to helping local rugby clubs grow the game by helping them create a league in their community by providing administrative and coaching assistance to lessen the burden on club members. We have created a partnership between Legacy Rugby Academy, the Legacy Center, and rugby clubs to help promote the game of rugby at the youth level (K-8).

What: A partnership formed between Legacy Rugby Academy and local clubs to help support them with administrative and coaching tools in their efforts to grow the game at the youth level.

Why: Our goal is to help grow the game of rugby as a whole by focusing our effort at the youth level. The thought process is if we introduce the game to kids at the young age instead of waiting until high school, when routines are formed, we can grow the total number of players in the future.

How: Legacy Rugby Academy will provide resources to clubs to manage the administrative process so club members are made available to coach and promote the game of rugby. We will also work to provide coaching resources to new coaches and existing coaches to make sure the fundamentals are being taught with precision.

About the Legacy Rugby Academy Youth Partnership

Legacy Rugby Academy is committed to helping the sport of rugby grow in the state of Michigan. This partnership will give local teams the support they need to activate and maintain a youth league in their local communities. It is important to us that we help existing teams create a rugby community around their local club. The goal of organizing the leagues this way is to create a large player pool that will allow for expansion into schools. It will also help strengthen local high school, college, and senior club teams by introducing kids to the sport at a young age and making rugby teams apart of their communities. All leagues will run at the same time with a four week round robin, one week playoff, and a one week championship held at the Legacy Center in Brighton, MI.

It is a priority for us to form partnerships with the existing rugby clubs to help each grow their player ranks and the game in their respective communities. We are excited to offer this youth partnership as a source of fundraising for clubs that wish to partner with us by charging a small per player fee and allowing clubs to set their own price point per player.

We are committed to helping teams by offering administrative assistance with sign-up, fee management, promotional, and other logistical tools needed to handle a youth league. We are also committed to coach education and making sure the players, who are the future of our game, are being taught the proper fundamentals so the game can be played in a safe and fun manner. Your club's youth coordinator and coaches will partner with Legacy Rugby Academy's coaching staff to make sure they are getting the technical support they need so the players are learning the proper skill and the coaches are communicating the ethos of rugby effectively.

Coach Education

It's extremely important that the sport make a great first impression on not just the athletes but also the parents, and that starts with the coaches. We will make sure anyone willing to promote

the game by teaching it will have the tools they need to succeed. Legacy Rugby Academy will look to provide:

- Access to Legacy Rugby Academy coaches
- Coaching resources like how to videos and articles from experts
- Comprehensive coaching manual for the fundamentals
- On-site pre-season training camps from Legacy Staff

Conclusion

We want rugby to be BIG but we need your help. This unique partnership will work to free up club members to work on teaching and growing the game instead of being bogged down with the administration that goes into running such a league. This also can be a great recruiting and potential revenue source for your club as your league grows.

It is important that this initiative is what you want it to be. So, please reach out to us and start a dialogue on how this can be improved for your existing situation and help you build a strong future for your team.
